

hydraulic screen changers

BDO FQ

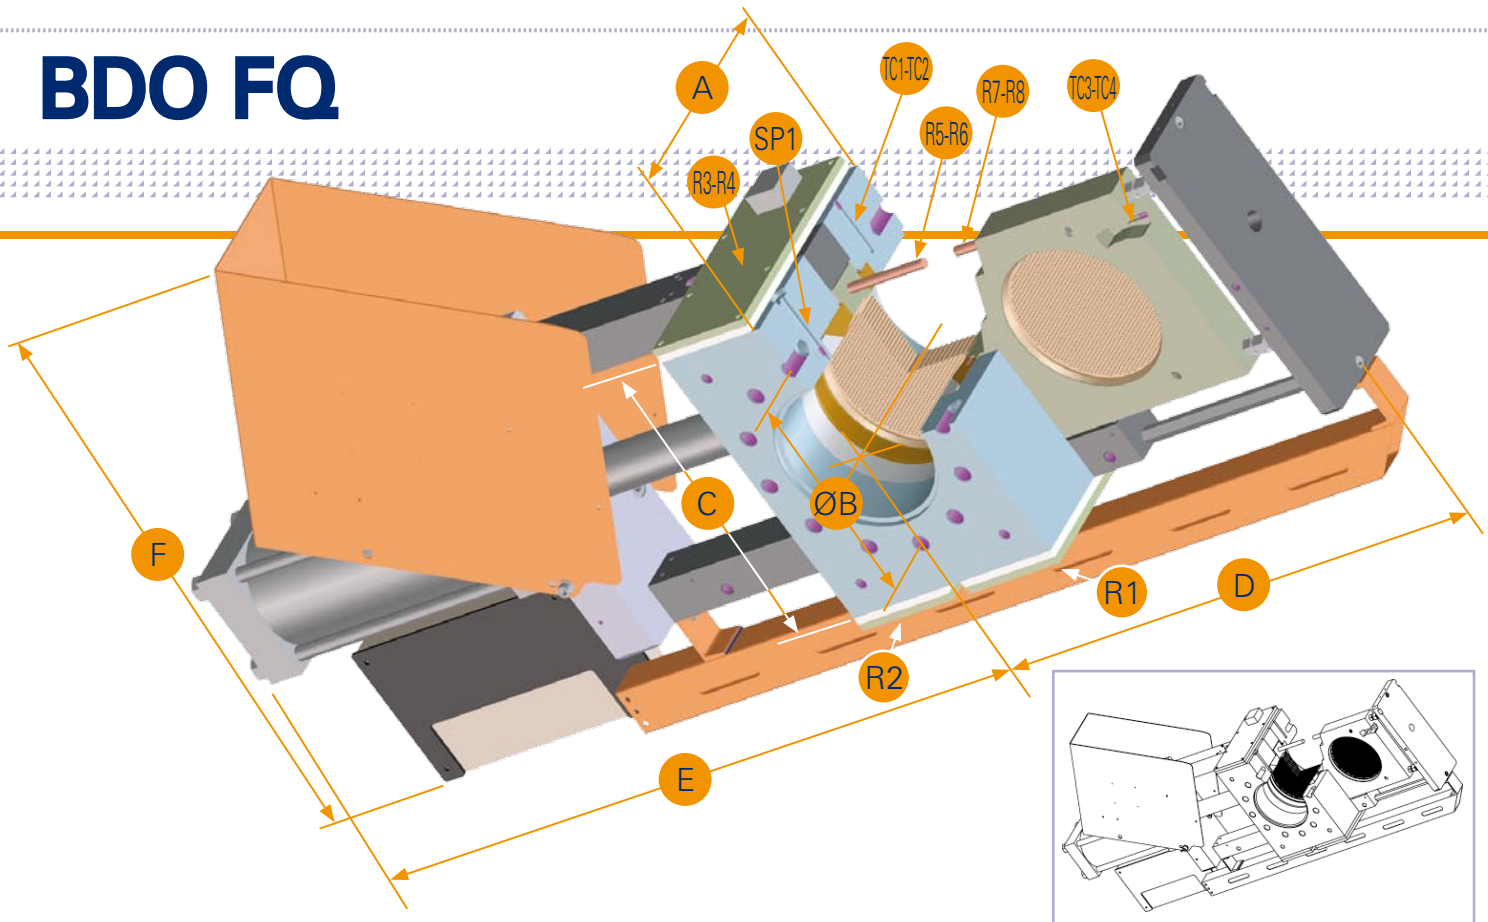

This new generation of hydraulic screen changer, BDO FQ, address traditional but demanding users. They are designed in order to be fitted to extrusion lines for high hourly production or for recycling. The new generation more similar to BDO FT has now been improved from the ergonomics point of view. The renewed safety guards system enables easier access to the sliding plate for replacing the nets and the new wiring system

allows quick and easy maintenance. The high quality engineering of this product is confirmed through its reliability and structure and was evolved when meeting with our customers different requirements while achieving excellent results in the most critical and difficult situations. They are available with filtering masses from \varnothing 180 to \varnothing 400 mm.

BDO FQ
